BURIAL AT SEA DELIVERY PARTNERSHIPS FOR FUNERAL DIRECTORS

Mamarine.com Llp (Burials at Sea.co.uk) can deliver burials at sea for your company in support of your clients opting for this type of burial.

As an experienced Burial at Sea Company we work with most National and many Local Independent Funeral Directors in delivering the operational parts of a burial at sea. From being notified of the death we take full responsibility for obtaining the MMO licence and the compliance with the provisions of the burial at sea licence. We act at all times as a support contractor to the Funeral Director in the fulfilment of their clients wishes to be buried at sea.

HOW OUR “PARTNERSHIP” WORKS

FUNERAL DIRECTOR

As the Funeral Director requested to arrange and carry out a burial at sea you should proceed in your normal professional way with your client’s arrangements following notification of the death. By appointing us to carry out the operational part of a burial at sea, we will obtain the MMO licence following us with email copies of the (originals to be held by you and available on the day of the burial at sea for MMO inspection) following:

- The Death Certificate**
- Certificate of Freedom from Fever and Infection**
- Coroners Out of England Certificate**

MAMARINE (BURIALS AT SEA.CO.UK)

On receipt of these documents (via email) - we will commence the Marine Management Organisations (MMO) online process of obtaining the Licence for your client’s burial at sea. The MMO licence fee is payable at the time of submission. Once the licence is granted (usually at the end of the online process and the submissions being accepted by MMO) we will advise you of the successful licence including any special conditions required.

Liaising with you throughout as the Funeral Director we will arrange all logistical arrangements (date of the burial – booking the boat, crew, crane, Harbour Masters pontoon and any catering requirements (pre/post the burial). Provisional date/time will be researched via multiple weather forecast sites for the best project weather window to match the provisional date/time preferred by the Funeral Director/Family. We will also seek to establish how many family/friend will wish to accompany the deceased on their final journey aboard our cruiser (up to 10 passenger plus the deceased). Additional passenger capacity is available via added vessels being chartered in support.

FUNERAL DIRECTOR

Your role will be to carry out your normal Funeral Director duties including obtaining the sea casket and preparing the deceased for burial at sea. We require you to deliver the deceased in the MMO specified casket to the shipyard crane for transfer to our vessel for the burial at Sea this is prior to the family being aboard. They will be invited aboard at the Harbour Masters Pontoon and following a safety briefing we will proceed to the Needles burial site.

MAMARINE (BURIALS AT SEA.CO.UK) – DELIVERY OF THE BURIAL AT SEA

We will assume full responsibility for carrying out MMO Licence requirements once the casket has been placed aboard our chosen vessel. We will charter sufficient vessels to deal with any additional passengers wishing to accompany their loved one on this final journey.

DEPARTURE POINT FOR BURIALS AT SEA USING THE NEEDLES DESIGNATED BURIAL AREA

LYMINGTON LOGISTICS - FUNERAL DIRECTORS (ORANGE) - FAMILY (YELLOW) - BOAT (RED/BLUE)

WE USE A CRANE TO LIFT THE CASKET ABOARD OUR VESSEL AT BERTHONS SHIPYARD* – PRIOR TO MEETING THE FAMILY AT THE LYMINGTON HARBOUR MASTERS PONTOON – CASKET FLAGGED

***USE OF THE CRANE REQUIRES 2 REPRESENTATIVES ONLY FROM THE FUNERAL DIRECTORS TO ATTEND THE BURIAL AT SEA OPERATION – MAMARINE.COM LLP ASSUME RESPONSIBILITY FOR CARRYING OUT THE MMO LICENCE ONCE THE CASKET HAS BEEN DELIVERED TO THE CRANE.**

ADDITIONAL NOTES

MMO DESIGNATED BURIAL AT SEA SITES (ENGLAND)

There are three burial at sea sites around the English Coast:

- Off the Needles Isle of Wight
- Between Hastings and Newhaven
- Off the North East Coast Tynemouth

Additionally there are two designated sites in Scotland (off John O’Groats and off Oban West Coast)

The Needles MMO Designated Site

Mamarine (Burials at Sea.co.uk) usually use the site off The Needles Isle of Wight but can arrange the other sites if required - these can attract a fuel or different vessel hire supplements. MMO are prepared to look at non designated sites but this is a lengthy process and time may preclude this being investigated if death has occurred.

BURIAL AT SEA CERTIFICATE

Following the Burial at Sea Mamarine (Burials at Sea.co.uk) provide a location certificate for the Funeral Director to present to the family. The certificate shows the exact location that the deceased was buried at sea with the Funeral Directors Logo displayed.

ABOUT MAMARINE (BURIALS AT SEA.CO.UK) 07721978053

We are also a family business who offer an experienced approach to Burials at Sea using our own Italian Motor Cruiser – additional vessels are available for the difficult and heavier caskets (they may incur a supplement based on the additional costs involved)

We are keen to develop a joint marketing approach to Burials as Sea and the Scattering of Ashes at Sea Charters including the displaying of our images on your own web site.

Our standard services includes obtaining the MMO Burial at Sea Licence, the MMO licence fee and managing the logistics of the burial at sea up to and including the completion of the licence requirements Our fee is an inclusive price of £2210 (vat is zero rated as a transport charter).

Mamarine /Burials at Sea offer a personalized and supportive service 24 hours a day, 7 days a week – year round (answer service) and we seek to support and complement your approach to bereaved families - Ring John 07721978053

DECEMBER 2017

I recently took part in a BBC Radio 4 Program presented by Dame Joan Bakewell

“We Need to Talk About Death” - Series 2, Bury Me at Sea, Episode 3 -
